SuperSoy – Product Information Sheet

Description

A Soya Bean based product ideal for pig, poultry and fish diets.

Catalogue of Feed Materials Category

Oil Seeds, Oil Fruits, and products derived thereof.

Nutritional Benefit

During the production of SuperSoy careful process control procedures ensure that it is steam pressure cooked which limits protein damage whilst maximising the reduction in anti-nutritional factors. It is then cooled and ground before being stored.

Features

- A free flowing golden coloured meal with a pleasant odour.
- Moist processing conditions ensure protein digestibility is not reduced.

Feed Assurance

Assured under a feed supplier scheme currently recognised by AIC.

Legal disclaimer

Suggested feeding rates are given as a guide only with no performance guarantee given. Rations should be formulated by a trained nutritionist balancing forage, energy & protein.

Material Handling and Storage

Material has been stored in compliance with Defra Code of Practice for the Control of Salmonella.

Limitation of Use

Cannot be used in non GM diets.
